

## IMPORTANT MESSAGE FROM HEADQUARTERS

Week 2 – MASTER OF DISGUISE – Putting On the Life of Christ

Greetings Agents:

I am glad that you all made it back. This week is most important. The training you receive today will prepare you for handling each of your future assignments. So, you will want to make sure you stay sharp and pay attention.

Every agent must understand that during missions, there are times to be seen and times to be “invisible”. As an agent of God, this means that we need to go undercover and wear a disguise. The success of the mission depends on it.

Putting on a disguise and hiding our actions doesn’t mean that we are afraid or ashamed of serving Jesus. On the contrary, it means that we want people to see Him more clearly through what we did, so hiding ourselves and our identity is very important. You will understand more by the end of the training.

This week, our assignment will cover:

1. Learning how to not trust what you see
2. The purpose of disguises and how to use them
3. What it means to “put on Christ”

As you leave, there is a mission brief containing some additional training exercises. It contains some fun activities, as well as several “undercover” assignments for you to choose from. Select one of the assignments and have it completed by our next training meeting. Good luck, agents. We’re counting on YOU!

Sincerely yours,

Horatio Witherspoon,  
Director of Secret Operations
